

Food Service Company in Hyderabad Overcomes Reimbursement Leakages with Effortless

Manual Reimbursements Caused Delays, Errors, and Endless Leakages hitting Profitability

A leading Hyderabad-based food service company known meals faced major reimbursement of employee and staff travel-related expenses by manual processes led to delays, errors, and leakage.

Key Challenges

- ▲ Managing Reimbursements Manually for a Large Team across India
- ▲ Delayed and Error-Prone Reimbursement Process
- ▲ No real-time tracking, leading to leakages
- ▲ No central visibility of Reimbursement Policy Adherence

The Effortless Fix

Effortless automated the reimbursement process as per the company's policies with **easy claim submissions, real-time tracking, and streamlined multi-level approvals**. This accelerated reimbursements, minimized errors, enhanced transparency, and improved employee satisfaction, allowing the finance team to focus on more value-driven tasks.
