

How This Customer in Gurugram Did Field Sales & Reimbursements Under One Roof

Fragmented Sales Data Driving Confusion and Losses

Field sales ran on WhatsApp and Google Sheets, leaving managers blind to ground activity, routes, performance, and reimbursements—causing delays, confusion, and lost productivity

Key Challenges

- ▲ Missed/delayed orders from manual processes
- ▲ No real-time team movement tracking
- ▲ Late/incorrect manual reimbursements
- ▲ Hard-to-track branch performance
- ▲ No reliable data for route planning

The Effortless Fix

Effortless replaced WhatsApp and Excel with a real-time app, streamlining field sales. **Teams now follow planned routes, place orders, and track reimbursements in sync—giving leadership full control and visibility.**

Visibility into team activities

4x

Faster order tracking and billing cycle

↑ 80%

Reduction in manual coordination

2x

Improvement in payment follow-ups

"We dumped the WhatsApp chaos. With Effortless, sales reps stick to planned routes, orders are tracked live, and reimbursements just happen. It's like giving our field ops a command center."
