

How This 100-store Chennai Retail Company Gained Visibility and Control with Effortless

Manual Entries and Delays Crippling Finance Ops

With 100+ stores and 30,000+ monthly bills, finance was drowning in manual entries and slow approvals. Errors and delays frustrated vendors, while petty cash lacked any audit trail. The Finance Head had no visibility or control, leaving the team stuck in firefighting mode.

Key Challenges

- ▲ Thousands of manual bill and petty cash entries
- ▲ Errors and delays leading to vendor dissatisfaction
- ▲ No audit trail for petty cash usage
- ▲ Finance constantly in firefighting mode
- ▲ No bandwidth for planning or strategy

The Effortless Fix

Effortless automated **Petty Cash and Expense Management**, with **Multi-Level Approvals** and real-time visibility through the **Cost Center Reports**. The Finance Head gained complete control over cashflows, cut manual work, and synced all store-level operations seamlessly.
