

How a Leading Internet Service Provider in Chennai Streamlined Finance Operations **with Effortless**

Fragmented Sales Data Driving Confusion and Losses

A leading Internet Service Provider faced manual recurring invoicing delays, slow cash flow, and finance team strain, with no automation for bulk invoice sharing—hurting customer communication and timely collections.

Key Challenges

- ▲ Manual recurring invoice creation every month.
- ▲ Time-consuming bulk invoice sharing.
- ▲ Limited channels for quick follow-ups.
- ▲ Productivity loss from repetitive billing tasks.
- ▲ Errors in assigning invoices to the right sales rep or customer.

The Effortless Fix

Effortless connected **Tally** with the **sales team's mobile app**, enabling **real-time order tracking, instant invoicing, and payment link sharing**. This **eliminated manual updates, reduced delays, and improved cash flow**.

Faster Bulk invoice sharing via WhatsApp & Email

↑ **100%**

Accuracy in sales rep-customer assignment

↑ **70%**

boost in team productivity by reducing repetitive billing tasks

"Before Effortless, we were sending 8–10 payment reminders every week — manually. Now, the system does it for me. Recurring invoices go out automatically, and I've saved almost half a day every week just on follow-ups."
